PetFlex®

Here are the answers to
FREQUENTLY ASKED QUESTIONS
about...**PetFlex®**

Q. What's the difference between PetFlex® & Vetrap®?

A. PetFlex is a cohesive bandage that is stronger than Vetrap. Unlike Vetrap, PetFlex has an easy, straight, hand-tear. PetFlex provides consistent compression and will not constrict down.

Q. What is the difference in cost?

A. PetFlex should be priced comparable to other cohesive bandages. PetFlex is fabric-based and durable, and can be re-used, which makes it extremely economical. PetFlex is sweat and water-resistant and an excellent option as a splint bandage.

Q. Why is PetFlex better than other cohesive bandages?

A. PetFlex is the better choice because:

- PetFlex is HAND TEAR.
- PetFlex is stronger.
- PetFlex is priced economically.
- PetFlex can be re-used.
- PetFlex is sweat and water-resistant.
- PetFlex is based on patented technology.

Vetrap® is a trademark of 3M Health Care Corporation
PetFlex® is a trademark of Andover Healthcare, Inc.

Helps prevent
biting & tearing
of bandage!
